Soft Skills

- Communication
- Team work
- Problem solving
- Leadership
- Team Player

Work Experience

Trueminds Innovations Limited
Front End Developer Intern

Jan, 2026- April 2026
Nigeria

- Developed a responsive Food Ordering and Customer Management System UI using React and Vite, applying modern frontend development practices to deliver cross-device compatibility, seamless user experience, scalable architecture, and maintainable code.
- Collaborated with a cross-functional team to develop a scalable Learning Management System (LMS) serving 50+ registered users, working closely with UI/UX designers, backend developers, and project managers in an Agile development environment.
- Oversaw API integration workflows to ensure efficient frontend-backend communication and assisted in reviewing frontend implementations to maintain code consistency and development standards.
- Achieved a perfect project evaluation score of 10/10 for the individual project, receiving commendation for code structure, UI implementation, and attention to detail.
- Achieved a performance rating of 97/100 and was recognized as a top contributor for teamwork, communication, and technical impact.
- Ranked among the top 1% of interns overall, achieving a cumulative performance score of 102% and a final grade of A+.

Freelance Marketplaces
Front End Developer

2024 - Current

- Utilized HTML, CSS, JavaScript and React to create visually appealing and responsive web pages that met client requirements.
- Converted a provided Figma design into a fully functional and interactive web application.

Projects

TalentFlow LMS Project | *React, JavaScript, HTML, Tailwind CSS, Git, Github, Vercel.*

- Collaborated with a cross-functional Agile team to develop a scalable Learning Management System (LMS) serving 50+ registered users.
- Integrated RESTful APIs and managed asynchronous data handling for dynamic application features,.

Chuks Kitchen | *React, JavaScript, HTML, CSS3, Git, Github, Netlify.*

- Built responsive and reusable UI components using React and Vite to improve scalability
- Implemented route-based navigation and interactive user features to enhance overall user experience.

Leadership

Trueminds Innovations Limited
Front end Team Assistant Lead

- Assisted in task delegation and code reviews, contributing to improved team coordination.
